Product type: Structural parts for mooring
Product name: Mooring components
Manufacturer: ASEKE, orgnr. 913 635 469
Address manufacturer: Hoffsv 65 A, 0377 OSLO,
NORWAY

aseke.no

the manufacturer and the reviewed products satisfy requirements for strength and safety of fish farms according to the Norwegian Standard NS 9415:2009, reliability class II:

Extent of production certificate

- The production certificate implies that Aquastructures AS has found that the manufacturer fulfills the requirements of the supplier/manufacturer in NS 9415:2009 and the NYTEK regulation.
- The supplier/manufacturer itself is responsible for issuing product certificate on product series approved by Aquastructures AS. The content of the product certificates is to be approved by Aquastructures AS.
- The product certification is carried out according to the certification system 1b ISO guide 67.
- Approved product series, with corresponding capacities, are described in *PS030V_Product_list_aseke_25.01.17_ENG.pdf*.
- Terms and conditions are described in the document *Aquastruct.aseke_061212.pdf*

Criteria for validity:

- Any changes in certified products or production shall be reported to Aquastructures AS and be approved by Aquastructures AS before the changes are implemented.
- The production certificate is subject to regular audits, preferably annually.
- The production certificate is valid to 15.02.2018.

The production certificate is issued to:

as Einar Kunsts eft., orgnr 913 635 469

Trondheim, 15.02.2017
